I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I have used compounded natural hormones for fifteen years. My compounded medication alleviated symptoms that had made my life unbearable, these symptoms included depression, anxiety and sleeplessness. They gave me a new life. I object to the statement "inordinate amount." This limitation would take my ^{of life} quality from me by restricting my ability to obtain compounded natural hormones my doctor has prescribed and that I need desperately. Please don't take my life away from me. It was hell before compounded natural hormones.
